

Remarks

The Application is in condition for allowance in view of a Notice of Allowance dated December 29, 2010. Pursuant to 37 C.F.R. 1.312, amendments to the Specification are provided herewith and include amendments made merely to correct typographical errors in paragraphs [0004], [0009], [0010], [0012], and [0027] and in Table 1. None of the amendments provided with this paper introduce new matter because they only embody the correction of formal matters in the specification without changing the scope thereof. All amendments are supported by the originally filed specification and claims and are filed with payment of the issue fee. Support for the amendment in Table 1 may be found in paragraph [0028] of the originally filed specification. Amendments presented herewith do not affect the scope of the claims as allowed.

It is noted that no Amendments to the Claims have been introduced with this paper and none were requested by the Examiner in the Notice of Allowance dated December 29, 2010.

Because the Examiner has authority to enter amendments submitted after a Notice of Allowance of an Application that embody merely the correction of trivial informalities or the correction of formal matters without changing the scope of the claims, Applicant respectfully requests that this Amendment submitted under 37 C.F.R. 1.312 be approved and entered without withdrawing the case from issuance.

In view of the amendment and remarks provided herewith, Applicant believes the pending application remains in condition for issuance.

Respectfully submitted,

/Monique A. Vander Molen/
